PRESS COMMUNIQUE

No. 918.

Dated Port St. George, the 5th February 1937.

No. 10—

[Special concerted and widespread programme of improvements to minor works of irrigation in the Madras Presidency.]

To relieve the economic depression and consequent unemployment among the rural population, the Government of India resolved in April 1934 that Provincial Governments should undertake schemes of capital expenditure on public works. One pressing method of achieving the object in view was to improve irrigation works in the Presidency. Various proposals and suggestions were made by the Board of Revenue and the Chief Engineer for Irrigation, and Government decided in February 1935 to adopt an accelerated programme of improvements to minor irrigation works in charge of Public Works and Revenue Departments. The selection was primarily to strengthen the hands and other component parts of irrigation works amongst the best followed in finance programme schemes.

2. Detailed proposals, with a three-year programme, were submitted by the Board of Revenue and the Chief Engineer for Irrigation. Government sanctioned the scheme in April 1935 for three years and directed that a sum of 80 lakhs should be spent. The amount allocated for expenditure in 1935-36 was 14.37 lakhs. Nineteen special subdivisions and one special division were constituted to execute the works. In each district the Collector in consultation with the concerned Executive Engineer selected the works to be taken up. The following principles were observed in the selection and execution of the works:—

- (a) The first aim was to distribute relief over as wide an area as possible. Small works were therefore preferred to large ones.
- (b) To ensure that the largest possible number should benefit, the main expenditure was earmarked for earthwork. Villagers who worked lands under the tanks were given the contracts and it was made a condition that the local village labour should be recruited and utilised on the work.
- (c) In addition to tanks, supply channels feeding them were also taken up for repairs and restrictions on landowners were waived.
